

An Overview of the Medi-Cal Transformation Justice - Involved Initiative

Presented by the *MAT in Jails and Drug Courts Learning Collaborative*

AUGUST 15, 2024
11:00 AM - 12 PM PT

Through a series of initiatives and reforms, CA DHCS is advancing and innovating Medi-Cal to create a more coordinated, person-centered, and equitable health system that works for all Californians. With the Medi-Cal Transformation Justice Involved (JI) Initiative, California is making substantial efforts to improve health outcomes for individuals impacted by incarceration by implementing pre-release Medi-Cal enrollment strategies. This approach ensures that individuals have continuous coverage and access to essential services upon their release from carceral settings, aiding in their successful reintegration into the community.

This presentation will provide an overview of the Justice-Involved (JI) initiative and its timeline, emphasizing how collaborative courts are impacted by and can benefit from this initiative.

Participants will be able to ask questions about the implications of the Medi-Cal Transformation JI Initiative for individuals served in collaborative courts.

Presenter: Julie White, Principal, HMA, has thirty years of experience working in the criminal justice system, with a focus on diverting people from incarceration where feasible and building infrastructure and supportive systems to provide comprehensive care and reentry services for individuals who are incarcerated. She is passionate about the Reentry Section 1115 Demonstration Opportunities and has expertise in designing and implementing these initiatives.

This webinar is being co-hosted by **California Association of Collaborative Courts (CACC)**. The recordings from this webinar will be available on demand on AddictionFreeCA.org and <https://www.wearecacc.org/> following the event. For more information, please visit <https://www.wearecacc.org/>.
